**Peak Serum, Inc., Supplier of Life Science Laboratory Products,
Joins Colorado BioScience Association**

FORT COLLINS, CO – August 6, 2015 – Peak Serum, Inc. is proud to announce its recent membership to the Colorado BioScience Association (CBSA), joining esteemed members such as Life BioScience Inc., Merck & Co., Inc. and Pfizer.

The services provided by CBSA are designed to support members through business networking events, advocacy on behalf of the industry to elected officials, bottom line savings through purchasing programs and knowledge-sharing programs.

“As a member of CBSA, Peak Serum is established as an integral part of an active industry that is unified in the goal of ensuring Colorado’s position as a leader in bioscience research, development and manufacturing,” said Tom Kutrubes, President and CEO of Peak Serum. “We hope, through this membership, to develop relationships, to engage in research and development and to continue educating ourselves in the bioscience industry.”

Other accomplished members of Colorado BioScience Association include: Colorado State University, Colorado Center for Drug Discovery, Evergreen Research, Inc., Front Range Scientific, LABS Inc, Omni Bio Pharmaceutical Inc. and many more.

About Peak Serum, Inc.

Peak Serum, Inc. is a privately owned and independent supplier of life science laboratory products, conveniently located near high-technology science parks in Denver, Boulder and Fort Collins. The company’s core focus is Fetal Bovine Serum (FBS) for cGMP / clinical trial research and diagnostics applications. Peak Serum offers a wide range of high quality, 100% US origin and USDA-approved FBS products for all levels of research compliance. Peak Serum’s products are backed with superior knowledge, while delivering competitive market pricing and a consistent, readily available supply. For more information on Peak Serum, Inc. visit peakfbs.com.

About Colorado BioScience Association

Colorado BioScience Association is an independent non-profit 501 (c) 6, member-funded organization founded in 2003. CBSA represents over 350 companies and works to shape and develop policies to help Colorado's bioscience and medical device companies grow and prosper. CBSA works to support the regional bioscience community through advocacy, resources and advancement of opportunities for collaboration. Colorado BioScience Association is led by an esteemed Board of Directors drawn from Colorado's top bioscience leaders. For more information on CBSA, visit cobioscience.com.
