**Peak Serum, Inc., Supplier of Life Science Laboratory Products,  
Joins Washington Biotechnology & Biomedical Association**

WASHINGTON – August 5, 2015 – Peak Serum, Inc. is proud to announce its recent membership to the Washington Biotechnology & Biomedical Association (WBBA) joining esteemed members such as Aerotek Scientific, Cancer Research and Biostatistics, Gamma Therapeutics, Inc. and Johnson & Johnson Services, Inc.

Washington Biotechnology & Biomedical Association aims to support and help grow Washington state's life science ecosystem through advocacy, enterprise support and the enhancement of research collaboration. WBBA members have access to commercialization expertise, industry news, purchasing discounts, governmental advocacy and industry events.

“As a member of Washington Biotechnology & Biomedical Association, Peak Serum is established as a part of an active group of life sciences leaders dedicated to advancing cutting-edge industry research,” said Tom Kutrubes, President and CEO of Peak Serum. “We hope, through this membership, to develop relationships, engage in collaborative research, and continue educating ourselves in the bioscience industry.”

Other accomplished members of Washington Biotechnology & Biomedical Association include: BioTech Primer, Infectious Disease Research Institute, Strategic Pharmacy Innovations, UW Medicine, Washington Sate University and many more.

**About Peak Serum, Inc.**

Peak Serum, Inc. is a privately owned and independent supplier of life science laboratory products, conveniently located near high-technology science parks in Denver, Boulder and Fort Collins, Colorado. The company's core focus is Fetal Bovine Serum (FBS) for cGMP / clinical trial research and diagnostics applications. Peak Serum offers a wide range of high quality, 100% US origin and USDA-approved FBS products for all levels of research compliance. Peak Serum's products are backed with superior knowledge, while delivering competitive market pricing and a

consistent, readily available supply. For more information on Peak Serum, Inc. visit [peakfbs.com](http://peakfbs.com).

**About Washington Biotechnology & Biomedical Association**

Washington Biotechnology & Biomedical Association aims to establish Washington State as the global leader in life science innovation and healthcare delivery. Through advocacy, enterprise support and the enhancement of research collaboration, WBBA supports Washington State's life science ecosystem. By partnering with member organizations, WBBA provides health solutions including: innovation, capital, talent, advocacy and purchasing solutions.
