**Peak Serum, Inc., Supplier of Life Science Laboratory
Products, Joins BioFlorida**

FLORIDA – May 6, 2016 – Peak Serum, Inc. is proud to announce its recent membership to BioFlorida, the voice of Florida’s life sciences industry.

BioFlorida represents nearly 5,500 establishments and research organizations ranging from emerging and established life science companies to universities, research institutions, hospitals, medical centers, investors and service providers.

“As Peak Serum continues to grow and expand nationally, we’re strategically aligning with proactive industry associations,” said Tom Kutrubes, President and CEO of Peak Serum. “Florida’s bioscience industry is developing breakthrough discoveries and therapies that have the ability to propel the industry and improve the quality of life across the country and around the world. Peak Serum is looking forward to collaborating with industry leaders and being a life sciences change agent.”

Peak Serum, Inc. is a privately owned and independent supplier of life science laboratory products with a core focus on Fetal Bovine Serum (FBS) for cGMP / clinical trial research and diagnostics applications.

Peak Serum offers a wide range of high quality, 100% US origin and USDA-approved FBS products for all levels of research compliance. Peak Serum’s products are backed with superior knowledge, while delivering competitive market pricing and a consistent, readily available supply.

“We have used several brands of serum in our laboratory, but only use Peak Serum now,” said Laura Chubb on behalf of Colorado State University Flint Animal Cancer

Center. “The improvement we have seen with Peak Serum is in the proliferation rate of our mesenchymal stem cells, it has been much improved over other serum brands.”
